August 29, 1990 .

Mr. Jess Walrath, Jr.
Manager, Environmental Assurance
Carrier Corporation
P.O. Box 4808
Syracuse, New York 13221

Dear Mr. Walrath:

This letter is in response to your August 9, 1990 request for modification of the approved work plan for the Collierville Site. EPA has no objection to the relocation of the monitoring well and therefore approves the request as discussed in the letter. It should also be noted that if contamination is found in the soils of Monitoring Well 43 and/or the soils in the temporary Monitoring Well 45, then a well or wells will eventually have to be placed north of the site to delineate the northern boundary of the plume.

Should you have any questions, please contact me at (404) 347-7791.

Sincerely,

Elizabeth A. Brown
Remedial Project Manager
